Leslie,

Thank you for spending some time with me on the phone discussing LRP and blasting issues. Following is the email I received from Paul Evans who lives in our city. If possible, I would like to be kept in the loop regarding this matter. Thanks again for your help.

Len Arave  
Mayor, North Salt Lake  
Office 801-335-8718

Subject: RE: Concern

Mayor Arave,

I would like to express my concern with the LRP mining plan. Today at 11:00 am a blast was felt from the mine which shook my home to the point that the mirrors and dishes were rattling. This is unacceptable and needs to be stopped. It is horrible to have these type of tremors and damage inflicted on my house as well as the fear my family experiences that we are having an earthquake.

The blast was so sever that my neighbor Paul Evans over .5 miles away experienced the same tremors and was very concerned. I don't not think Kern River would be very excited about the tremors so close to its Pipeline.

I ask for you help in maintaining a safe city approved neighborhood. I purpose that seismic monitoring be attached to our foundations on behalf of LRP as a show of good faith.

Thanks for you help and support

Sincerely,  
John Hall  
801-628-6320
